CONFERENCE LOCATION

The conference will be held on **November 4-5 2010, in Iasi**. Iasi is the most important cultural city from the north-eastern part of Romania, being mentioned in history sources in the late of the 14th century. The first document reference comes from 1408, when the town of Iasi is mentioned in a commercial privilege letter granted by Alexandru cel Bun to the Russian sellers. Thanks to its favorable position at crossroads on trade routes, Iasi flourished and became the capital of Moldavia during the reign of Alexandru Lapusneanu, in 1565, and filled this role up to 1859. It was also the capital between December 1916 - November 1918, since Bucharest was under German occupation. Being the witness of crucial politic and cultural events involving the modern history of Romania, Iasi is a true museum. There are here a lot of places evoking the passage of the greatest personalities of the Romanian literature, music, science, philosophy, history or politics. The Al. I. Cuza University of Iasi was founded in 1861, being the oldest and one of the most prestigious academic institutions from our country.
